

St. Michael

On the external wall are ⁸two high reliefs. One of them depicts foreign dignitaries having an audience with Siam's King Narai and the other depicts a Siamese diplomatic mission having an audience with France's King Louis XIV. The arched doorway in the middle of the St. Michael Building is called Si Rattanakosin. In the porch is a white statue of ⁹Sir Isaac Newton opposite that of Albert Einstein. Both were geniuses whose discoveries and experiments led the world to a new era of high technology.

St. Michael

This building houses the registration, finance and administration. Standing at Si Rattanakosin gate one sees the Cathedral of Learning to the front with the Au logo above the entrance door, and to the rear is the long boulevard leading to the Martin Rangsan Bridge. The bridge is the gateway to the clock tower and residence halls.
