### 1. Creative Work Name

Gift from the Heart of Our Father  
“พลังใจจากพ่อ” (Music Scoring for Remembrance of his majesty King Bhumibol Adulyadej Short Film)

### 2. Name of Artist or Designer

Pongvichak Protpakorn

### 3. Background or Significant of the Project

On 13th October 2016 Thai people have lost our king and this situation has brought sadness moment that occurred in our country. After that Ministry of Energy Thailand has an idea to create short film for remembrance of his majesty

King Bhumibol Adulyadej. Thai people will remember of his majesty and this project would emphasize or remind what our King Rama IX has done for our country.

I have an opportunity to make a song on this project.

My inspiration for writing this music is all of his majesty King Bhumibol Adulyadej.

### 4. Project Objective

1. When the audience watch this movie along with my music they will fill grateful to his majesty the king for all his hard work.

2. To combine orchestra instruments for creating powerful sound of inspiration

harmony.

3. To show respect and remembrance of his majesty King Bhumibol Adulyadej through my music score.

### 5. Concept

Will use of magnificent and gorgeous instruments such as strings section, woodwind, brass, and percussion to indicate the powerful of music for remembrance of his majesty King Bhumibol Adulyadej Short Film. During the dramatic scene by using impact sadness piano with effects or strings section with convolution reverb. For inspiration part I used the classical and chamber (hall) sound with woowinds and full strings section to impress. The Digital Audio Work (DAW) Station is utilized for some electronic sythisizer pad that could increase power full. Notes and melodies in this project are based on some pentatonic scale (traditional Thai style). Ovrall project the rhythm and pattern of instruments are created through strings, woodwine, and piano in order to design dramatic and inspiration tone. All Instruments and sound design mix with Orchestra give classical and vintage flavor.

### 6. Process of Design or Art Works

6.1 I started with talk to the director of this project and discuss the important. For example, I study how the picture of

King Bhumibol Adulyadej tell the story and how music work with voice over from announcer as well. Therefor we know about style of mood and tone in the story prior to creating all sounds.

6.2 Then I write the music score scene by scene, which separate instrument track and compose all sound together by using DAW program. After that, all sounds are brought together for mixing and mastering (appropriately way with theater movie format).

6.3 This Project reherased with all sounds. The launch of the collaborative full team production on 30th November 2016.

### 7. Material and Techniques of Design or Art Works

- Music instrument and sample library such as piano, woodwind, percussion and strings section.

- Using of instruments articulation technique to create variety texture, color of music, and sound. Examples include pizzicato, legato, and tremolo on string etc.

- Using of Leitmotif theme to associate the music drama and inspirational with particular follow the story.

- All sound will be created by Digital Audio Work (DAW) program. I will compose music on Logic pro9 and mastering on ProTools 10.

## 8. Picture of Designed Works

## 9. Knowledge After Finished Produce Art or Design Works

This project could make people to remembrance of The King Bhumibol Adulyadej's royal duties and his words that along of his reign. In term of techniques, combining classical and some modern instruments to indicate mood and tone in the short duration (without building up music) that will give a lot of knowledge and challenge. This project will also give an experience of scoring music for inspiration. We have to considerate and focus on time duration that's very short, concept of this video, how sound will impact on the right time. All these things will give me a direction to create inspirational music for Remembrance of his majesty King Bhumibol Adulyadej video.
