AU AWARDS FOR EXCELLENCE

Philosophy and Objectives

“Those who have sacrificed their lives and time by their creative loyalty and positive contributions to the institution must be recognized, promoted and rewarded.” So wrote Rev. Prathip Martin Komolmas in the *Faculty and Staff Development Policies*, July 22, 1993. The philosophical underpinnings of the AU Academic Awards were simply that good deeds and achievements must be recognized and awarded. The President had often expressed his wish to establish academic awards as incentives for the academic community. Evaluation of job performance for this purpose was undertaken. After a considerable length of time, the administrators decided to introduce the awards. These awards aim to both reward for past performances and encourage future efforts. As a reward, it demonstrates our belief that those selected have met and surpassed the standards of excellence for the award given. The awards are also meant to encourage future efforts of not only the reward recipients but others who may take note that they, too, will be recognized for superior performance. The AU Academic Awards are granted periodically to those who met the selection criteria.

Historical Background

One of philosophies of Assumption University is that good deeds and achievements done by any member must be recognized and awarded. The first conferment of awards was initiated in 1997 under the name AU Academic Awards. Only lecturers were nominated for these awards under six categories. Then, three-tier system of achievements (first, second, and third class with the first as the highest in each category) was announced in 1999 to take effect in 2000 (AU Academic Awards, December 24, 1999, p. 12). In the year 2000, the name of the awards was changed to **AU Awards for Excellence**. The purpose is to reward not only teaching staff but also the non-teaching staff who daily facilitate in the management and operation of the institution.

AU Awards for Excellence

Each award was named after an illustrious person found in Catholic Church history and also in memory of our predecessors who had worked long and hard to carry out their teaching mission. The general policies governing each award were laid down by the AU Academic Awards Committee in 1997. These policies are

subject to review, re-interpretation and modification as may be called for. Except for the St. Montfort Award, St. De La Salle Award and St. Joseph Award, the awards are given in three classes. The second and third class awards are meant to recognize mid-level and junior AU faculty members and staff who have performed well above the norm as compared to their peer group. The awards are as follows:

**St. Montfort Award
Illustrious Service Award**

The St. Montfort Award was named after St. Louis Marie Grignion de Montfort (1673-1716), the founder of the Brothers of St. Gabriel. He is our spiritual master who walked before us toward the Living God. Following in his footprints, we can proceed on a path to union with God. The Brothers of St. Gabriel in Thailand consider him to be a model for a religious life and for their educative mission.

This award is given for faithful, dedicated and outstanding services rendered to the University by senior administrators whose career spans more than twenty-five years.

**St. Michael Award
Public Service Award
(First, Second, and Third Class)**

The St. Michael Award was named after St. Michael the Archangel, the protector of the people of God.

The award also honors the name of Brother Michael, one of the 13 French Brothers who moved from Thailand to India during World War II. He was appointed master of novices at Eachinkadu, Yercaud, South India, tasked with the training of a number of senior Brothers of the Province of Thailand.

This award comes in three classes and is given to University members who have provided academic and/or other significant services to society, and who have represented the University in academic and supporting activities that are acknowledged by the public. In so doing, they uphold and promote the University's reputation and stature.

**St. Hilaire Award
Distinction in Writing Award
(First, Second, and Third Class)**

The St. Hilaire Award was named after St. Hilaire who was born at the beginning of the fourth century at Poitiers in France. He was a bishop and Doctor of the Universal Church.

Brother Hilaire was one of the first five pioneering Brothers to arrive in Thailand in 1901. He was a well-known educator at Assumption College, Bangkok. He mastered the Thai language so well that he became an unparalleled Siamese Linguist. He wrote Thai language manuals, the first of which, Darun Suksa, was considered by all as the very best source for the learning of the Thai language.

This award comes in three classes and is designated for those who achieved distinction through academic writings in the form of articles and books.

**St. Martin de Tours Award
Excellence in Performance Award
(First, Second, and Third Class)**

St. Martin de Tours, for whom St. Martin de Tours Award is named, was a Roman soldier raised in Italy. Finding God, he converted to Christianity and became an unwilling soldier. Later he was a disciple of Hilaire of Poitiers and, still later, became the Bishop of Tours. The award was also named in memory of Brother Martin de Tours, one of the five Brothers who first entered Siam on October 20, 1901.

This award is designated for lecturers and administrators: who discharged their duties and responsibilities conscientiously and superbly: who exhibited high standards of efficiency, excellence and quality in teaching, counseling, and duties such as composition of test materials, framing of examination papers and other academic related factors. The award is also for non-teaching staff who add to the University learning process.

**St. Bernard Award
Special Merit Award
(First, Second, and Third Class)**

The St. Bernard Award was named after St. Bernard (1090-1153), an abbot and later named Doctor of the Church. He was a Cistercian monk. He wrote profusely and movingly concerning the Lord Jesus, spirituality, the Scriptures, and the Blessed Mother.

The award also recognized Brother Bernard Mary whose idea of adding a degree program to the existing Assumption Commercial College (ACC) program that eventually led to the establishment of ABAC and hence Assumption University.

This award is intended for University members who exhibited special managerial skills, and who performed their tasks and assignments beyond the normal calls of duty such as initiating, restructuring or reengineering of programs for an office or department, or providing voluntary services for improving, upgrading systems and procedures, and participating in other artistic or scientific activities for the welfare of society.

**St. Thomas Aquinas Award
Research Award
(First, Second, and Third Class)**

The St. Thomas Aquinas Award was named after St. Thomas Aquinas in respect for his special talents that he devoted in full measure to the search for the Eternal Truth. St. Thomas Aquinas was a great Dominican teacher (1225-1274). He traveled and wrote extensively. His two *Summas* should not obscure his other biblical, theological and philosophical writings. He dedicated his brilliant talents to the investigation of the sublime truth of God in the light of faith and the human intellect. He is the patron saint of all Catholic schools.

This award is given to those who contribute through their research to the promotion, enhancement or the reputation and prestige of the University. Their research should result in publications, patents and/or other innovative materials or feature.

**St. De La Salle Award
Commendable Service Award**

The St. De La Salle Award is named in honor of St. De La Salle, a learned man and Patron Saint of all teachers, who is credited with writing the pedagogy of the teaching profession and the twelve virtues of teachers.

This award recognizes and rewards faculty members who have served exclusively as lecturers for over twenty-five years at Assumption University, maintaining high standards of excellence in their profession.

St. Joseph Award Dedicated Service Award

The St. Joseph Award is named after St. Joseph. The bible mentions him as a humble and just man. The Catholic Church has proclaimed Saint Joseph as the Patron Saint of all workers.

This award recognizes and rewards full-time staff members who, having served at Assumption University for at least twenty-five years, in their everyday work and roles, go beyond themselves in bringing service with satisfaction to their colleagues and students, in selfless ways.

Research Fellow

The title “Research Fellow” is conferred upon a distinguished Professor or Lecturer before he retires from active service at the university.

Individuals appointed to this honorary position display a deep love for research as a pathway to truth. Their endeavors in revealing inspirational truths through research are indeed commendable and worthy of recognition.

This recognition also includes individuals who have contributed, through their intellectual works, to the strengthening of the university’s expertise either through writing textbooks, creating a faculty or setting intellectual standard for academic connaisances.

Brother President

Brother President Emeritus

Faculty Members and Distinguished Guests

It is an honour that the President graces the conferral ceremony for AU Awards for Excellence 2009.

To enable you to have an insight into the significance of the awards for Assumption University's community, prior to the awards conferral, I would like to present you a brief history, philosophy and objectives of the AU Awards for Excellence.

The AU Awards for Excellence was officially initiated on 22 July 1993 by Rev. Bro. Prathip Martin Komolmas. He initiated the policy which he wrote: "Those who have sacrificed their lives and time by their creative loyalty and positive contributions to the institution must be recognized, promoted and rewarded."

The first conferral of awards was initiated in 1997 under the name **AU Academic Awards**, under six categories. Then, three-tier system of achievements: first, second, and third class, with the first as the highest in each category was announced in 1999 to take effect in 2000. In the year 2000, the name of the awards was changed to **AU Awards for Excellence**. In 2008, the President of Assumption University decreed the inception of the **Professor of the Order of St. Gabriel** as part of the annual awards ceremony to honour faculty members who are dedicated to teaching and providing service through other avenues within the university.

Since its conception, Assumption University has always deemed it appropriate to acknowledge the contributions of everyone within the university community, especially individuals who have contributed immensely to the success and attainment of academic goals of the university. Acknowledgement of such sacrifice, commitment and dedication to teaching, research, administration and service is a graceful act. Individuals who have shown such dedication and hard work are worthy of recognition and award.

The philosophical underpinnings of the AU Awards for Excellence are simply that good deeds and achievements must be recognized and awarded. These awards aim to both reward for past performances and encourage future efforts. As a reward, it demonstrates our belief that those selected have met and surpassed the standards of excellence for the award given. The awards are also meant to encourage future efforts of not only the award recipients but others who may take note that they, too, will be recognized for excellent performance.

In this year 2009, Rev. Bro. Prathip Martin Komolmas, President Emeritus, initiated two additional distinguished awards namely, St. De La Salle Award and St. Joseph Award which would be conferred to faculty members and staff members who have made valuable contributions to the university and have been committed and dedicated to their profession, roles and responsibilities for over twenty five years.

For the year 2009's AU Awards for Excellence, the University takes great pleasure in conferring

1. St. Montfort Award for Illustrious Service to 4 faculty members,
2. St. Thomas Aquinas Award to 3 faculty members,
3. St. Michael Award for Public Service to 1 faculty member,
4. St. Bernard Award for Special Merit to 1 faculty member,
5. St. De La Salle Award for Commendable Service to 18 faculty members,
6. St. Joseph Award for Dedicated Service to 19 staff members,
7. Research Fellow to 2 senior faculty members.

On this auspicious occasion, may I call upon Rev. Bro. Bancha Saenghiran, the President of Assumption University, to confer the AU Awards for Excellence.

While caring for the quality of service through education, Mr. Kamol has stabilized the service quality factors in the Office of the Registrar to accommodate the demands of the bachelor's, master's and doctoral degree programs. The challenges of diverse scheduling, managing different program periods and numbers of sections offered at the undergraduate and graduate levels have not been beyond the capabilities of Mr. Kamol and his team to manage. These challenges, on the other hand, have created the inimitable opportunity for them to computerize the Registration and payment systems and digitize the student data storage system into the best systems in the country and in the region. The image of Assumption University has become enhanced through the role that Mr. Kamol and his team play in assuring the smooth and qualitatively high academic support services through the Office of the Registrar.

As dependable as he is versatile as an administrator, Mr. Kamol has for the past many years also served as the Director of the University Office for Admissions, both locally and internationally. Based on his and his staff's aggressive marketing overseas, the Assumption University international student representation has swollen to 3,000 in 2009 and the university was awarded the Thai Prime Minister's Award for the Highest Revenue realized through the exporting of Educational Services, in 2002 and 2009 respectively.

Displaying an unbiased and open mind at all times, Mr. Kamol has the talent of meeting difficulties and challenges head-on and easing them through efficient management. These traits combine well with his managerial capabilities and his patience of dealing with problems in the University and beyond, in worldwide markets where Assumption University promotes its academic services.

For the depth of his contributions into making Assumption University well recognized for its quality education in and around Thailand, Assumption University is pleased to confer the St. Montfort Award for Illustrious Service on Mr. Kamol Kitsawad on this auspicious date of December 24, 2009.

Prof. Dr. Graham Kenneth Winley was a Mathematics Teacher at New South Wales Department of Education and Professor and Head of Department of Information Systems at the University of Wollongong in Australia before joining Assumption University on November 1, 2001 as full-time lecturer in the Department of Applied Statistics, Faculty of Science and Technology. At present, he is the Chairperson of the Department of Information Technology, Director of the Information Technology Research Laboratory and Program Director of the Doctor of Philosophy in Information Technology.

Prof. Dr. Winley earned his Bachelor of Arts in Mathematics from Macquarie University in 1973, Master of Science in Operations Research from the

University of New South Wales in 1976 and Ph.D. in Mathematics System Modeling from the University of Wollongong in 1980.

Prof. Dr. Winley has extensive teaching experience at undergraduate and postgraduate levels concerned with applied mathematics and statistics, operations research, systems analysis and design, and research methodologies. His research publications have been focused on two main areas: the mathematical and statistical modeling of systems and the development and use of information technologies in the context of organizations. Publications related to mathematical and statistical modeling have been concerned with the development and analysis of models of population growth in the biosciences as well as the development of heuristic search methods for scheduling problems. Recent publications have centered on the adoption of information technologies in organizations operating in Thailand and the development of the information technology profession in Thailand. This research has paid particular attention to the evaluation of progress on national ICT policy aims and objectives concerned with the development of the information technology profession and the use of information technologies in various organizational sectors.

From the list of papers published during the past few years, it would appear that Prof. Dr. Winley is an indefatigable research writer. A faculty member undertaking research on such a scale is likely to be highly fortified in areas of his specialization and below are some of the titles that stand to his credit.

7. Research Fellow

7.1 Dr. James Gallagher

Inducted Research Fellow

Citation:

Dr. James Gallagher has been a member of the Assumption University community since 1988. He received his Bachelor of Arts in English Literature from Fordham University in 1974, Master of Arts and Ph.D. in Philosophy from the New School for Social Research, U.S.A. in 1977 and 1983 respectively. An experienced professor of philosophy in the United States, Dr. James taught Communications and English to graduate students under the leadership of Rev. Bro. Cyril, then the Vice President for Academic Affairs. His effectiveness in this capacity made him a natural candidate to play an important role in the editing of the ABAC Journal under the supervision and guidance of the Executive Editor, Rev. Bro. Prathip Martin Komolmas, President of Assumption University, then known as ABAC. Under Rev. Bro. Martin, Dr. James played an important role in the growth of the journal, occasionally himself contributing scholarly articles on

philosophy, and in its transition to a modern publication produced by using computer technology.

When the University decided to establish a technological journal under the Editor-in-Chief, Professor Dr. Srisakdi Charmonman, an eminent scholar in the field, Dr. Gallagher was called upon again to take on the task of Managing Editor and again he played a critical role in the journal's success and expansion. In addition to these formal responsibilities, Dr. Gallagher has always been ready to provide assistance in furthering the University's goals. In summary, Dr. Gallagher has been a distinguished part of Assumption University, a distinguished teacher and editor for over twenty years.

In recognition of his accomplishments and contribution, Assumption University is pleased to induct Dr. James Gallagher as Research Fellow on this auspicious date of December 24, 2009.

7.2 Dr. Felix Erni

Inducted Research Fellow

Citation:

Having qualified himself with a Doctor of Philosophy in English Literature from Zurich University in 1975 and a Full Professorship from the Swiss Department of Education in 1987, Dr. Felix Ernie arrived at Assumption University looking for new challenges in Higher Education teaching and administration. Noting that quest in Dr. Ernie, the then President of Assumption University, Rev. Bro. Prathip Martin Komolmas, with a vision to moving ABAC towards University status in 1990, assigned Dr. Ernie to plan and prepare the curriculum for six Business Language degree programs—English, French, German, Spanish, Arabic, and Chinese, between 1983 and 1985. Upon the completion of the curriculum and its approval by the then Ministry of University Affairs, Dr. Ernie was appointed as Dean of the newly created Faculty of Arts in 1988 to oversee the implementation of the curricula in Business English and Business French. Such programs had hitherto never existed. They came into reality through the academic expertise and ingenuity of Dr. Ernie. By 2002 there were only seven Business English programs in the world, according to a BBC Radio survey. Today, in Thailand Business English programs are mushrooming, based on the prior model of the Assumption University Business English curriculum. Nowhere else in Thailand is there a full fledged Faculty of Arts in Applied Business Languages in English, French, Japanese and Chinese.

The academic distinction achieved by Dr. Felix Ernie for innovativeness in curriculum design is commendable. Assumption University, with a deep sense of gratitude and pride, is pleased to induct Dr. Felix Erni as Research Fellow on this auspicious date of December 24, 2009.

ASSUMPTION UNIVERSITY ANTHEM

Lyrics by : Thomas Khng
Music by : Lian Sek Lin
Arranged by : Capt. Veeraphan Vawklang

From every corner of the land,
We come to pursuit truth.
For integrity, and progress we stand
And learning's sterling worth
Up lifting virtue of mind and hand
With the glory of our youth.

We are the salt of the glorious earth
No task is too hard to do.
For Assumption and the land of our birth
We remain ever loyal and true
For excellence in all realms of effort
We give Assumption its due.

Assumption is
the light that leads
Our youth to knowledge sure
Ever mind full of all our needs
It brings us to learning shore
Ennobling our academic deeds
Making our
future secure!

GOD WILL MAKE A WAY

Words and Music by Don Moen

God will make a way where there seems to be no way.

He works in ways we cannot see.

He will make a way for me.

He will be my guide, hold me closely to his side, with love and strength for each new day.

He will make a way.

He will make a way.

By a road way in the wilderness, he'll lead me, and rivers in the desert will I see heaven and earth will fade but his word will still remain.

He will do something new today.

WE WISH YOU A MERRY CHRISTMAS

We wish you a Merry Christmas

We wish you a Merry Christmas

We wish you a Merry Christmas

And a Happy New Year...

Good tidings to you and whenever you are.

Good tidings for Christmas and a Happy New year. *(repeat all)*
