### ABSTRACT

The investigation in criminal case is basic of the Judicial Process. If the investigation cannot collect the nessesary evidence involve the criminal case. If effect to the course of justice in the public prosecutor level or judge

Therefore the investigation criminal case on children offender is even more important because it is involve external factor and internal factor of an alleged offender impact to the investigation for example the place for investigation. The officials who investigate to make the children feel safe so the children sensitive to external factor or immotion they aren't patient like adult that is the cause to solve the Criminal Procedure Code about the investigation many times and to decide for many careers join the investigation include lawyer investigators, social worker, psychologist, public prosecutor and the people who requested by children so they feel warm.

However, the reseach show that the investigation of an alleged children offender has defect about personel officer ability ammount place and budget to the right and fair for an objective of law.
