

Abstract

To relate the human living from society in present day, people always have the obligations to keep their life goes on by holding a principle, theory and reason which been works on for long times ago and probably forever. Some of them work hard and satisfied on their job but there are a lot of people that unsatisfied but keep it on by thinking of duty to make their life successful. However, it may created the bad effects in term of health, mind, and future.

The aim of this research was to study the human behavior and feeling they had from their work by create the place that provides the thing that can be cure them or make them feel better . The objective also to gain knowledge of hotel function and facilities, in order to created the hotel design that provide practical facilities as art therapy. In addition, to create the hotel that adapt the therapy theory into its design hence maintain standard hotel function and facilities.

The result of this project to make people who come to the hotel and gain something new by having art therapy as the main subject to relive people who live in the hotel and become the better person when they leaved.
