

Acknowledgement

I would like to say special “thank you” to my advisor, Dr. Archanya Ratana-Ubol, Ed.D. for all her kind advice in relation to my study and for helping me to perform to my fullest potential.

I am much indebted to Mrs. Anongnuch Puyanont, Administrative Assistant, Department of Mental Health, Thai Airways International Airlines Public Company, who provided sophisticated information regarding the counseling services in the organization. And I also owe sincere thanks to Mr. Paibool Boonyanunta, In-flight Services Cabin Attendants Administration Department who facilitated my admission for questionnaire distribution.

A sincere “thank you” is to Dr. Dolores de Leon, our former dean and teacher, who support me, and who is a source of inspiration for all MSCP students. I would also like to express my gratitude to the MSCP dean, Dr. Vorapot Ruckthum, and to all teachers for their support and encouragement.

My heartfelt thanks are to Dr. Maria Bella Bamforth for editing my thesis manuscript, and to Dr. Robert Ho for sharing his statistical expertise on data analysis and interpretation. I also acknowledge with sincere appreciation the kind assistance for the translation of the instrument provided by Fr. Jean Barry, S.J., Ed.D.

A profound debt of gratitude is owed to my parents for all their support, encouragement, and belief in me.
