

ABSTRACT

Mobilephonein4.com is web site which provides mobile phone's information. This web site will provide deep technical information for mobile phone in the world market in Thai language. Moreover, it will show the latest hot news in relation to mobile phone and mobile events. And other services in the site such as online shopping, second hand mobile phone market, ring tone download, and software download.

Mobilephonein4.com will have a wide range of target groups. Mobilephonein4.com would like to give them an up-to-date information which we have a plan to expand to be a professional mobile phone web portal. And we have a plan to gain revenue from advertisement, online mobile phone shops and second hand mobile phone markets. We have expected the return on investment in about 5 years.
