

Ms. Piyawan Puttibarncharoensri
St. Bernard Award for Special Merit (Third Class)

Citation:

Ms. Piyawan Puttibarncharoensri graduated "Magna Cum Laude" from Assumption University in 1993 majoring in Commercial Lines Insurance, continued her studies at University of Hartford, U.S.A. obtaining a Master of Science in Insurance in 1994 and returned to ABAC in 1995 as an instructor in the Faculty of Risk Management and Industrial Services. She was promoted as Chairperson in the Department of Industrial Management in June 1997 by which time she had completed the Certificate of Training in ISO 9000 Auditor / Lead Auditor Training Program conducted by Moody International Ltd. and the EAN Certificate in Supply Chain Management Instructors Training organized by the Federation of Thai Industries.

In late 1990s Ms. Piyawan succeeded in breaking out of the groove and got involved in the public service activities which enabled her to discover her organizing ability as well as her pedagogic proclivities. These activities included work as Head of the National Invigilation Team for Purchasing and Supply Chain Management Examinations, Coorganizer with Moody International Thailand Ltd. Of ISO 9001: 2000 Training Program, Coorganizer with EAN Thailand Institute of Executive Certificate Program in Supply Chain Management, Guest Lecturer on "Risk Management and Financing" and "Ethics for Life Assurance Agents" courses conducted by Thailand Insurance Institute.

While planning and organizing such ad hoc training courses brought plaudits to Assumption University, it also generated large revenues and even after deducting expenses, incidentals and apportioning a share of income to the project leader the overall profit to the University was quite substantial. For the success of her special courses and the bold initiatives taken by her, which resulted in good publicity for the institution, the administrators are pleased to bestow on Ms. Piyawan Puttibarncharoensri the St. Bernard Award for Special Merit (Third Class) on this auspicious date of December 24, 2004.
